WORK EXPERIENCE

FRONTEND DEVELOPER | "MONDIAL INMOBILIARIA" (REAL ESTATE WEBSITE) 11/2024 - 01/2025

- Collaborated on a real estate platform for the Spanish market, focusing on UX (User Experience) and Responsive Design.
- Developed a dynamic property catalog with demonstration carousels and detailed property views.
- Implemented a news blog and essential sections (About Us, Contact, Location) including integrated contact forms.
- Tech Stack: Built the frontend using React 18 + Vite (JSX) and Tailwind CSS.

FULL-STACK DEVELOPER | FOOD DELIVERY APP: "EL BUEN SABOR" 04/2024 - 07/2025

Developed a Single Page Application (SPA) using React and TypeScript for the frontend, styled with Tailwind CSS, and a Java/Spring Boot backend for data management.

- Implemented JWT Authentication and user roles.
- Integrated key features including a persistent shopping cart, multi-step checkout, and Mercado Pago payment integration.
- Built Administration Panels for stock control, client management, and modular architecture maintenance.
- Designed a fully responsive interface with advanced keyword search functionality.

FULL-STACK DEVELOPER | MUSICAL INSTRUMENT ONLINE STORE 04/2025 - 05/2025

- Developed a comprehensive e-commerce platform featuring full CRUD management for products, shopping carts, and orders.
- Implemented a secure Authentication and Authorization system with role-based access control (Admin/Client).
- Created dynamic views based on user privileges and integrated a payment simulation with Mercado Pago.
- Built a statistics module with data visualization charts and export functionality to Excel and PDF.
- Tech Stack: Developed as a solo project using Spring Boot (Java), MySQL, and React + Vite with TypeScript.
